	5/2001:	InstallShield Professional	Learning Tree Corporation

EXPERIENCE: 11/2000 - Present **Programmer/Analyst II** Weston Solutions, Inc.
West Chester, PA

Maintained internal Visual Basic 6 Distributed Applications.

Maintained and developed internal middleware applications, interfacing with PDS Vista and Deltek Costpoint.

Developed new internal web-based applications using ASP, VB6, VBScript, and SQL Server 2000/Access 2000/Oracle.

Developed new internal web-based applications using ASP.Net, VB.Net, Javascript, and SQL Server 2000/Access 2000/Oracle.

Maintained and administered Sharepoint Portal Server sites, and developed Webpart content.

Developed and maintained employer intranet site, as well as portions of employer Internet site
Projects included:

- Company-wide Expense Reporting application.
- Federal Cost Estimating system.
- Emergency services catalog integration for US Postal Service.
- Company-wide Timesheet recording application
- Company-wide Inventory Management/Requisitioning system.
- Company-wide HR/hiring system, including integration with America's Job Bank, Monster.com and CareerBuilder.com
- Integration of project/cost/labor data for US Army Contractor Manpower reporting systems

Consulted/developed web sites for clients and industry partners, including same.baltimore.org, and samephilapost.org (Society of American Military Engineers).

Led in-house development training and mentoring programs.

3/2005 – Present **Adjunct Instructor** Montgomery County Community College
Pottstown, PA

Teach 5-week Workforce Development / Continuing Education course, **BIPCT1025 - Intro to VB.Net**. Class objectives included the Microsoft .Net Framework, Object-Oriented Programming / Design concepts, Windows Forms design, and the Visual Basic language specifications from the ground up.

7/1998 - Present **Independent Consultant** Self-employed

Consulted on website design for various personal and production websites. Developed Visual Basic applications for personal use of clients. Production websites include www.litwaart.com and www.audubonsymphony.org.

Contributed to several .Net community development projects. Projects include:

- VBCommenter PowerToy (<http://www.gotdotnet.com/workspaces/workspace.aspx?id=112b5449-f702-46e2-87fa-86bdf39a17dd>)
 - Expanded commenting options to include selective <history> tags based on user
 - Created manual XML comment build process (separate from assembly build process)
- NDoc (<http://ndoc.sourceforge.net>)
 - Expanded MSDN Documenter to merge additional TOC Files into documentation
 - Expanded documenter to parse VB Project files in addition to C# project files.
 - Added XSLT stylesheets to incorporate <history/> elements and to create direct documentation links.
- CommandBar for .NET (<http://www.aisto.com/roeder/DotNet>) (as yet unpublished)
 - Design-Time support for all objects
